Harsh Kumar Sinha

Junior Full Stack Developer | React.js | JavaScript | Python (Django) | SQL | REST APIs

Patna, Bihar, India • +91-9064318550 • sinhaharsh.hks@gmail.com • LinkedIn • GitHub • Portfolio

PROFESSIONAL SUMMARY

Junior Software Developer with 1 year of professional experience developing enterprise applications using SharePoint Online, SPFx, React.js, JavaScript, and TypeScript, alongside hands-on Python and Django development experience. Skilled in building reusable frontend components, integrating REST APIs, and developing database-driven applications. Strong foundation in Core Java, Object-Oriented Programming, and SQL, with additional theoretical knowledge of Generative AI and LLM concepts. Passionate about building scalable web applications and contributing to modern full-stack development projects.

TECHNICAL SKILLS

Programming Languages:	Java, Python, JavaScript (ES6+), SQL
Frontend:	React.js, TypeScript, jQuery, HTML5, CSS3, Bootstrap
Backend:	Django, REST API Development
Databases:	MySQL, SQL Server, SQLite
Enterprise Technologies:	SharePoint Online, SPFx, Power Automate
Tools:	Git, GitHub, VS Code, Postman
Additional Knowledge:	GenAI Fundamentals, LLM Concepts, Prompt Engineering

PROFESSIONAL EXPERIENCE

Enaviya Information Technology Aug 2025 – Jul 2026

Junior Software Analyst Engineer

- Developed and maintained custom SharePoint Online applications using SPFx, React.js, JavaScript, TypeScript, and Bootstrap for enterprise intranet solutions.
- Implemented dynamic employee dashboards, administrative modules, and intranet application features leveraging SharePoint Lists as the data source.
- Integrated SharePoint REST APIs to retrieve, process, and display real-time application data across multiple web parts.
- Built approval workflows and automated business processes using SharePoint and Power Automate, improving operational efficiency.
- Debugged and optimized frontend application performance using browser developer tools and iterative code refactoring.
- Collaborated with development teams on version control, code reviews, and deployment workflows using Git and GitHub.

ICE Technology Lab Feb 2025 – Apr 2025

Full Stack Development Intern

- Contributed to backend application development using Python and Django, implementing application logic, database models, and backend functionality.
- Developed backend modules and RESTful API endpoints for data processing and client-server communication.
- Performed database operations and implemented data management logic using Django ORM.
- Applied object-oriented programming principles and systematic debugging techniques during application development.

PROJECTS

Personal Portfolio Website | HTML5, CSS3, JavaScript, GitHub Pages | Live | GitHub

- Designed and developed a responsive personal portfolio website to showcase projects, technical skills, and professional profile.
- Implemented modern UI with smooth scroll navigation, responsive layouts, and cross-browser compatibility using vanilla JavaScript and CSS3.
- Deployed on GitHub Pages with continuous updates via Git version control.

Rajesh Construction Web Platform | JavaScript, Node.js, Express, SQLite, REST APIs, HTML5/CSS3 | Live

- Developed a full-stack commercial web platform with an interactive multi-step quote workflow and client-side validation.
- Engineered RESTful API endpoints in Express.js with SQLite database integration and automated email notifications.
- Built an authenticated admin dashboard for real-time lead tracking, inquiry status management, and CSV data export.

EDUCATION

Shivalik College of Engineering, Dehradun Graduated: Jul 2025

B.Tech in Computer Science | 65%

Assembly of God Church School, Asansol 2019 – 2021

ISC (Class 12): 84% (2021) | ICSE (Class 10): 71% (2019)

CERTIFICATIONS

- Core Java Certification
- Android Development Certification
- JavaScript Certification
