

Harsh Kumar Sinha

Full-Stack Software Engineer (Java | Python | SharePoint / SPFx)

Dehradun, Uttarakhand • +91-9064318550 • sinhaharsh.hks@gmail.com • [LinkedIn](#) • [GitHub](#) • [Portfolio](#)

SUMMARY

Results-driven Software Engineer with 1+ years of corporate experience specializing in SharePoint Developer solutions (SPFx/React), full-stack Python Developer projects (Django/MVC), and backend Java Developer systems. Proven track record of engineering secure APIs, building custom M365 web parts, and optimizing client-side performance.

TECHNICAL SKILLS

Languages & Core Tech: Java (Core/OOP/Multithreading), Python (Django/MVC), JavaScript (ES6+), TypeScript, SQL (MySQL/SQL Server/SQLite), HTML5, CSS3

Frameworks & Libraries: SPFx (SharePoint Framework), React.js, Java Collections & Concurrency Framework, Fluent UI, jQuery

Platforms & Ecosystem Tools: SharePoint Online, SharePoint On-Premise, Microsoft Graph API, VS Code, Git/GitHub

EDUCATION

Shivalik College of Engineering, Dehradun

B.Tech in Computer Science | 65%

July 2025

Assembly of God Church School, Asansol

ISC (Class 12): 84% (2021) | ICSE (Class 10): 71% (2019)

2019 – 2021

PROFESSIONAL EXPERIENCE

Enaviya Information Technology, Patna — Junior Software Analyst Engineer

Aug 2025 – Jul 2026

- Engineered and deployed modern cloud applications in SharePoint Online, building custom, stateful SPFx web parts and extensions utilizing React and Fluent UI.
- Optimized page responsiveness and reduced average client load times by 30% by refactoring legacy scripts into efficient, async-handling modern TypeScript code.
- Maintained cross-environment compatibility between SharePoint On-Premise and Online, designing secure CRUD data connectors utilizing Swagger-based APIs and SQL Server.

ICE Technology Lab, Patna — Full Stack Intern

Feb 2025 – Apr 2025

- Developed and deployed a Django-based web application as a Full-Stack Python Developer, enhancing user interaction by integrating frontend and backend modules.
- Collaborated with a team to improve website load speed by 30% through backend optimization and query refactoring.
- Wrote reusable and modular Python code following MVC architecture and RESTful endpoint design patterns.

PROJECTS

Custom Enterprise M365 Employee Dashboard | SPFx, React, Microsoft Graph API

- Developed a responsive custom SPFx Web Part using React and Fluent UI as a SharePoint Developer.
- Integrated Microsoft Graph API to securely pull real-time tenant user profiles, active tasks, and corporate calendar events into a single, cohesive interface.

Multi-threaded Data Processor | Java, Concurrency, OOP

- Engineered a high-performance Java utility utilizing multi-threading and concurrency utilities to process large datasets asynchronously as a Java Developer.
- Applied OOP design patterns (Factory, Singleton) and leveraged the Java Collections Framework to build a robust, modular, and easily testable pipeline.

ACHIEVEMENTS & EXTRACURRICULARS

- Secured 2nd place in Intercollege Football Tournament (2023)
- Finalist in Inter-school Singing Competition
- Enthusiastic Photographer with a portfolio on Instagram ([timel_essclassics](#))
